

MULTILOAD© EXTERNAL OPTION

Draft Survey

Before and after any loading or discharging operation it is necessary to perform a Draft Survey. In MULTILOAD© we have incorporated as an external option our Draft Survey Option allowing the Master to perform Draft Survey Analysis correctly and accurately.

This Option not only does the calculation but also gives detailed instructions of how to perform a Draft Survey, through extensive On-Line Help.

S.A. MALLIAROUDAKIS MARITIME LTD.

Committed to improve your ship and operations
